

Lie To Me

The other night you were runnin' around
I saw you out on the town
What am I supposed to do
You tell me something that just ain't true

You know I hate it, I hate it when you lie to me
You know I hate it, I hate it when you lie to me

The other day you said my sisters in town
We're going out to have a little fun
But I found out to my surprise
Your sister turned out to be another guy

You know I hate it, I hate it when you lie to me
You know I hate it, I hate it when you lie to me

One day I'm gonna find out what's going on
And when I find out baby, I'll be gone, gone, gone
Woooooooooooo!!!

I heard you went out with my best friend
He said you kissed him again and again
Gonna be a good girl you say you'll try
But we both know it's just another lie

You know I hate it, I hate it when you lie to me
You know I hate it, I hate it when you lie to me
