

Party Dress

Put on your party dress we're going out tonight
Take all the credit cards we're gonna do it right
Spend some money throw caution to the wind
Can't help it baby that's the mood I'm in

A fancy restaurant where we get waited on
No drive up window and no more coupon
Supersize me with a great big 'ol steak
Give the lady what she wants on't make her wait

**Put on your party dress
I'll handle all the rest
Put on your party dress tonight
Oh baby, I'm feeling alright**

Tell me darling what would you like to do
Maybe some music, a cocktail or two
Moon light stroll way down in the park
I'm stealing kisses where it's way too dark

**Put on your party dress
I'll handle all the rest
Put on your party dress tonight
Oh baby, I'm feeling alright**

We gonna sing and dance all night long
And party down to our favorite song
When I see you in those high heel shoes
I'm a winner baby just can't lose

**Put on your party dress
I'll handle all the rest
Put on your party dress tonight
Oh baby, I'm feeling alright**
